

Option to reduce DNS Resolution below 1 Day like 1 Hour or 6 Hour in NTA for Endpoints IP Address

Hi All, Opening this feature request to allow administrators reduce the NETBIOS DNS Resolution below 1 Day like 1 Hour or 6 Hour for dynamic environments.

As per current design Solarwinds allows minimum 1 Day settings with persistent method.

Also a feature to automate DNS resolution queries with On-Demand method same with interval of 1 Hour or 6 Hours.
