

# Run a Scheduled Report multiple times a Day

---

Hi All,

As mentioned in this thread, <http://thwack.solarwinds.com/thread/65043>

It would be nice if you can create a scheduled report to repeat itself multiple times within a day without having to create multiple schedules

I haven't seen v5.7 as yet, so unsure if this has already been implimented but if not, please vote it up

Cheers,

Chris
